

New

Eurographic 781 /25 corrugated yellow liner

Backing	Adhesive	Liner	Total Thickness μm	Adhesion to steel N/25 mm
PP	S	Ribbed PVC	250	Open side 10 Closed side 10
	Transparent	Yellow		

250 μm flexo mounting double sided tape.

Sicad improves the rigid flexomounting tapes range introducing a new thickness.

781/25 is a positive answer to the Market requests and is granting the same quality features as the thicknesses already proposed.

The new product has a yellow corrugated PVC liner, ensuring an easy removability of the liner.

Jumbo width: 1260mm (1240mm usable)

Most requested dimensions: 310mm and 1260mm.

Available on request in 4,5m length and packed in display.

Application: Mounting photopolymer or rubber plates on small diameter cylinders.
