Euro MSK Low tack

Backing	Adhesive	Colour	Total Thickness μm	Adhesion to steel N/25 mm
Flatback paper	Natural rubber and resins	White	100	1,9

Msk Low tack is a masking tape with very low adhesion, it is repositionable and removable without leaving adhesive residues.

The flat support is granting an high precision and definition of cut. MSK Low tack is hand tearable.

Application: Low tack masking tape specially developed for use when stenciling or masking delicate surface. Easy to remove and ideal for application on already painted, smooth or delicate surfaces (application tape).
