Colour of liner
green

Filmic flexo mounting double sided tape with easy peel liner.

Sicad has further developed the rigid flexo mounting tape range by introducing a new series.

The Eurographic 782 tape series, is a concrete response to Market demand, which enables **easy product handling** as well as traditional quality printing.

The new series, compared with the current, well known 780 and 781 series, is produced with a **soft corrugated** PP liner, which is **very easy to remove**. The new **adhesive formulation**, **guarantees excellent initial tack**.

Jumbo width: 1260mm (1240mm usable)

Most requested dimensions: 310mm x25m rolls and 1260mm x 25m log rolls.

Available on request in 4,5m length and packed in display cartons.

Available on stock: 310mmx25m
